PRATT'S
MINERAL
COLZA
OIL.
300° FIRE TEST.
Chas. Pratt & Co., New York,
Sole Proprietors and Manufacturers.

To Consumers of High Fire-Test Mineral Oils.

YOUR ATTENTION IS PARTICULARLY INvited to our 300° Fire-Test Oil, called "Pratt's Mineral Colza," which we are now manufacturing expressly for STEAMSHIP, RAILROAD and MILL ILLUMINATION, or for use where an exceedingly high Fire-Test Oil is required. It has already been adopted by many of the Railroads throughout the country, and by most of the coastwise steamers sailing from New York, whose continuance of its use in preference to all similar Oils is sufficient commendation as to its quality. It will not burn well in the ordinary Petroleum Lamp, it being of too heavy gravity for such use; but in the German Student Lamp and those with double wick burners, we guarantee it to give perfect satisfaction, producing a pure flame of great brilliancy. Our facilities for manufacturing are excellent, and equal to any demand, while the price is much lower than that of any oil in the market of the same character and fire test. The U. S. law in regard to the use of these Oils on passenger steamers is very explicit, as follows:

"Any Oil which will stand a Fire Test of Three Hundred (300°) Degrees Fahrenheit, may be carried as freight or used as stores on any steamer carrying passengers."

We beg to offer the following Certificates, which have been handed us from the very best authorities obtainable, in regard to the test of the Mineral Colza Oil, and they may be considered perfectly reliable:

Report of Prof. S. Dana Hayes, Massachusetts State Assayer.

[COPY.] BOSTON, Mass., Oct. 19th, 1876.
A sample of burning Oil, marked Mineral Colza, manufactured by CHARLES PRATT & Co., of New York City, has been tested by me with the following result: It has a Fire Test of 326° Fahrenheit. It does not ignite under 328° F.

Massachusetts State Assayer.

Report of Inspector of Petroleum Oil, for State of Massachusetts.

[COPY.] BOSTON, October 4th 1876.
I have tested samples of Mineral Colza Oil, from CHARLES PRATT & Co., New York City, and find the igniting point or Fire Test to be 315° Fahrenheit. (Signed) R. F. MEANS,
Mass. State Inspector of Petroleum.

Report on Sample of Mineral Colza Oil, Tested for U. S. Inspector of Steamers 2d District.

[COPY.] NEW YORK, April 25th, 1876.
Mr. ADDISON LOW, U. S. Sub. Inspector.
DEAR SIR: We have tested the sample of Mineral Colza Oil presented by you, and find it stands a Fire Test of 300° Fahrenheit, and we consider it in all respects a very superior Oil.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Discourtesy to Hayes.

CHICAGO, May 17.—There is much talk about the discourtesy shown to President Hayes by the two Russian Grand Dukes who, when attending the reception given by Gov. Morgan, left before the President arrived, though the President was mentioned in the invitation cards. The reason given was that the crush was so great, but this is regarded as a weak excuse, and Gov. Morgan was especially chagrined.

Contested Elections.

The Times editorially says it is evident there will be a long continued contest on the certificate of election in the 4th Congressional District California. The calendar makes a case for the Democratic clerk of the House. Pacheco was elected to congress by a small majority, 19, in all. Wigginton thought he could destroy it by carrying the case into the courts. [illegible] the courts decided in favor of Pacheco. Now Wigginton serves notice on Pacheco that he still claims the seat. The Governor who grants the certificate is a Democrat, but the judicial decision compels him to grant it to a Republican contestant. In such an emergency Clerk Adams, who claims extraordinary powers, will put Wigginton's name on the House roll.

It appears he carried off quantities of goods almost daily and sold them to Daniel J. Hall, dealer in dry goods and notions. He was caught in the act with 85,000 needles, 35 packages of thread and $47 on his person. By aid of his confession the bank books were discovered covering $9,000. Dan'l March was also arrested to-night in the act of carrying off goods from the same firm.

Miller that Newman had gone to Memphis to fight a duel with Mayor Reynolds, of Pine Bluff. Newman was put under bonds in the sum of $1,000 to keep the peace, but it is understood that Reynolds and his friends left Pine Bluff on a steamboat for Terrine, Miss., and that the duel is to come off there to-morrow morning.

Collecting the Whisky Judgments.

CHICAGO, May 18.—In accordance with instructions from Washington, District Attorney Bangs has been taking steps to satisfy the judgments obtained against Chicago whisky distillers. In performance of this duty he discovered this morning that Ford, Oliver & Co., against whom the government has a claim of $90,000, had sold out their business to their head book-keeper, by name Wataka. Notwithstanding this [illegible] sale, a U. S. marshal was instructed to seize their bonded warehouse, and proceedings will be instituted against the firm for fraudulent transfer of property.

Cooper, of Pennsylvania, secretaries. An address of welcome on behalf of the Baptists was made by Rev. Geo. C. Larimo.

Methodist Convention.

BALTIMORE, May 18.—At the joint meeting of the Methodist Convention, the committee on revision of church discipline submitted a partial report. The constitutional and elementary principles, and preamble submitted are those used by the Methodist Protestant Church since 183-, the single amendment being to make the line read, "the word of God is the only sufficient article of faith and practice." Adopted.

The committee on revision will consider the proposition that the general conference will be held quadrennially instead of biennially.

General Presbyterian Assembly.

CHICAGO, May 18.—The second day's session of the General Presbyterian Assembly of America was called to order by the newly elected moderator, Ellis, mentor opening the exercises. The moderator announced the first five committees. They were that on bills and overtures, which was headed by Rev. H. J. Van Dyke; the judicial committee, headed by Rev. E. F. Hatfield; polity of the church, headed by Rev. Alexander T. McGill; home divisions, headed by Rev. Jacob Bellville; foreign mission, headed by A. L. Upson. Various reports were read and referred to appropriate committees. The order of last year for reports for standing committees was adopted. Committee on credentials reported that Rev. A. Bradsted, from the Synod of India, Presbytery of Allahabad, had appeared without evidence or scrip of paper showing that he was duly elected, and being without credentials the committee recommended that his application for admission be not acted upon. The report of the committee on reduced representation, which has been already extensively published in denominational journals, was read and adopted. The session then joined with the Young Men's Christian Association in devotions of the hour, 12 to 1, after which adjourned.

Chamberlain Interviewed.

NEW YORK, May 18.—Ex-Gov. Chamberlain was interviewed here to-day. He speaks well of Gov. Hampton's administration. Time will show whether his policy is likely to redound to the welfare and peace of the State and people.

HORN LAKE, Miss., May 18.—Capt. Jeffries, a wealthy and respected old planter, blew the whole top of his head off with a shotgun, near Memphis, yesterday. Cause unknown.

The Frauds in the New York Custom House.

NEW YORK, May 18.—The custom house committee received a complaint from the Potters' Association, and believe the examiners and importers are in collusion to undervalue goods, the same as in the silk trade, so that honest firms cannot import.

Thos. Knox, once foreman for U. S. Weigher Owens, testified he collected $100 monthly from merchants for furnishing them copies of weights. Owens did no work. Witness and he quarreled about a division of those perquisites and witness was dismissed. Witness had been ordered to give employment to men sent him from the twentieth district by the Republican convention, who were incompetent and criminals. Witness had been offered money to leave the city and not testify before this committee by a man connected with the custom house and others. He was promised a position on the pay roll also.

Owens was called to corroborate the testimony about perquisites, but said he only followed orders given by the board of weighers, and was positively conscientious; he had no thought of fraud.

A. G. Brown, assistant weigher, testified to the incompetency of men employed; a less force, if competent, could do the work easily; there are men on the pay-rolls who do nothing, and perquisites are regularly collected. Janitors are entirely useless. Sugar is often marked 40 to 50 pounds less per hogshead than the correct weight. The weights are tampered with and the proceeds of funds received from merchants therefor were divided.

The committee gave notice they were ready to hear any suggestions or testimony from merchants, brokers, etc., in public or private, and would treat all revelations as confidential, if desired.

Fast Trains.

CHICAGO, May 18.—The Pittsburg and Fort Wayne Railroad starts its first fast train east Sunday evening at 4:40. It will reach New York the next night at 10:15, Baltimore at 7:35, Philadelphia at 7, Washington at 9:07 and Boston at 8:35 Tuesday morning.

WASHINGTON CITY.

National Bank Notes.

WASHINGTON, May 17.—The redemption of National Bank notes by the redemption agency last Monday was nearly thirty-four and a half millions. Counterfeits rejected since the organization of the agency amount to nearly $14,000, and stolen and other notes rejected to nearly $27,000. Over reported in remittances from banks for the same period amount to $65,000, and shorts to $6,000. Redemptions for the current fiscal year will amount to nearly $235,000,000, an increase of $17,000,000 over the preceding year.

The Centennial Fund.

The Times' Washington special says: An additional $275,000 of the Centennial fund was paid into the treasury to-day, leaving $225,000 yet due.

Back for a Senatorship.

CHICAGO, May 17.—The Inter-Ocean's Washington special says: Secretary Chandler has sent his entire personal property to Detroit. This is a complete breaking up after 2 years continuous residence.

Illinois Silver Bill.

The Tribune's Washington special says: The Secretary of the Treasury does not consider the passage of the act by the Illinois legislature, making silver coin a legal tender within the limits of that State as a very important event. The government is ready to supply the people of the State of Illinois, and those who may have creditors there, with all the silver they may desire in exchange for greenbacks. The only effect upon the Treasury which the passage of the law can have if really carried into operation will be to enable the Secretary to redeem greenbacks, instead of losing the per centage upon it, as it does if it redeems them in gold. Of course neither the State of Illinois nor any citizen of it is allowed under the laws of the United States to manufacture silver coin; so whatever benefit may accrue from the increased circulation of our subsidiary coins in that State will be gained by the U. S. government. If the law goes into effect it is not at all improbable that considerable demand for silver may spring up in New York with which to make payments in Chicago. The loss to Chicago creditors who would be obliged to receive that subsidiary coin would be from 15 to 20 per cent. Prominent officers of the treasury department believe if the law actually goes into effect it will become so unpopular before the meeting of the next legislature that its repeal will be one of the first acts of that body at its next session.

Stealing Government Logs.

The special agent who seized forty thousand stolen logs in Louisiana reports that the rafts are being towed away every night. The matter will be immediately attended to.

Sherman's Financial Policy.

NEW YORK, May 18.—The World's Washington special says Secretary Sherman was most emphatic this afternoon in denying the batch of dispatches published to-day announcing he intended to put forth soon an official statement to the country on his financial policy. He says he has prepared no such statement, and says there are no details of any course he intended to pursue beyond those which he introduced to the syndicate in New York last week. There is no authority whatever for the statement last week that he has decided to hoard $100,000,000 gold preparatory to resumption in 1879. Sherman stated this morning that he has received up to this date $4,198,000 of the amount of $5,000,000 of proceeds from the sale of 4½ per cent. bonds. The balance will be taken before a week, but it is not improbable that another sale will be made before the first of July, but he has not decided upon the amount. Sherman is in receipt of a number of letters protesting against the course he is pursuing, declaring the sale of 4½ per cent bonds to people would prove a failure, and the prediction that resumption under the act of 1875 would also fail. On the other hand, he is receiving quite a number of letters from prominent sources commending his action. He says he prefers to go on under the law which he regards as his only true policy, and believes resumption will come before the date named if Congress does not interfere in the meantime.

More Collectors Shot.

The Times' Washington dispatches report two deputy internal revenue collectors have been shot in Lee county, West Virginia. One was killed while in the discharge of his duties. The subject is likely to be considered at the next cabinet meeting, with a view to employ troops to assist the revenue officers.

The Author of Pinney's Statement.

WASHINGTON, May 17.—Joseph Wasson, while admitting that he furnished Pinney's statement for publication, positively denies that he received any pecuniary compensation for it, having acted merely as Pinney's friend and under Pinney's instruction. Pinney subsequently telegraphed to him to postpone the publication in the East, and let the matter come first to San Francisco. Wasson endeavored to comply with these instructions, but the matter was then out of his control. Wasson says that the information given him by the Navy Department is to the effect that the charge of desertion against Pinney, although foreshadowed in Acting Secretary Howell's letter, was never fully entered upon the records. Sargent and Congressman Page, in view of Pinney's application to have the supposed charge removed, seemed to have mistakingly assumed that it had been already made. It now appears, according to Wasson's information, that the charge, although threatened by Howell, has not yet been received. This statement, made yesterday by the Navy Department, that the charge of desertion has not been removed, and also admits of the possibility that it may hereafter be entered out there, is good reason to believe that it will never be urged, as the Department doubts whether any such charge could be sustained against a paymaster's clerk, and there is also reason to believe that in response to the request from Paymaster Cunningham assurances have been given that the Department will not take any action embarrassing Pinney's credit.

The Charges against Gov. Potts.

WASHINGTON, May 18.—The President, after examining the charges and complaints against Gov. Potts, of Montana, and the answer thereto, has dismissed them. The facts of the case, as represented to the President by Potts, who is now here, show that the attack grew out of personal matters entirely. An examination of every alleged official direliction of Potts has led to his complete vindication. So far from injuring the credit of the Territory, as alleged, the financial condition of Montana is represented to be better than that of any other Territory in the Union, and under his administration the credit of the Territory has been established and Territorial warrants increased in value from 60 to 98½ cents on the dollar, at the rate of 15 per cent. per annum, and bonds which were selling at 80 cents on the dollar at the beginning of his governorship are now drawing 10 per cent. interest and selling at par.

Postmaster Commissioned.

WASHINGTON, May 18.—The President has commissioned Wm. Chance postmaster at Astoria, Oregon.

Pay of the Army.

WASHINGTON, May 18.—Attorney General Devens has officially notified the Secretary of War that an army paymaster can certify to government indebtedness to officers without infringing upon law.

Removal of the Cheyennes.

In response to information forwarded by the lieutenant general of the willingness of the Northern Cheyennes to be moved to Indian Territory, the Indian office to-day requests the war department to start immediately, provided it can be done without any expense other than that required for rations. The Indian office has no funds available to pay for their transportation, but it is supposed that the ponies surrendered by these Indians at Red Cloud agency will be restored to them for use as means of transportation.

The Ohio Senatorship.

WASHINGTON, May 18.—Gov. Garfield has not formally withdrawn his name from the Ohio Senatorial contest, at the request of President Hayes. In a letter to Garfield Hayes states his reasons for the request, which were mainly that Garfield would be of more service to the administration and Republican party by remaining in the House, the President expressing his belief that his chance for election as Speaker were good.

Government Finances.

WASHINGTON, May 18.—Secretary Sherman says that whatever is done under the resumption act will be communicated first of all to the public. Nothing is to be done until after the most careful consideration and with the sanction of the President.

WEST INDIES.

An American Making Trouble.

HAVANA, May 17.—The mysterious movements of an American Catholic priest, Dr. Pope, have attracted attention. It appears Dr. Pope, while on his way hence to Hayti, had an interview with the Captain General and authorities. The Doctor had tried to gain the confidence of the Cuban leaders, but was suspected. It is supposed he intended to act as a go-between.

The Gold Sales.

The government has suspended the sales of gold, as the expectations of the treasury were not realized. The daily selling of gold in small quantities prompted rather than abated street speculation.

An American Trick.

An extensive smuggling fraud in the custom house has been discovered by the National Loan Society, who receive the revenue.

SOUTH AMERICA.

The Earthquake at Iquiqui.

A private telegram says the amount of property destroyed at Iquiqui was considerable, including stores, quays and about 10,000 tons of nitrate of soda, ready for shipment. The harbor and railway connections were so much damaged it will require a month to repair them.

The earthquake extended along the Peruvian coast and to Bolivia. At Pambellon and Derioke a number of vessels were wrecked.

CANADA.

Canadian Exports.

OTTAWA, May 18.—From April 1st to May 14th the number of exports to the United States was three times larger than in the corresponding period last year.

The common council of Victoria is preparing a Sunday law. The Colonist falls in with the idea far enough to agree that "bar-rooms should be closed during divine service." That editor seems to be remarkably religious and devotional.

BY ATLANTIC CABLE.

Gambetta Adds Fuel to Flame.

VERSAILLES, May 17.—Gambetta in the Chamber of Deputies to-day said no vote had placed the ministry in the minority. There was no conflict in parliament and while patriotically neutral the nation suddenly learned that the President had demanded the resignation of the Premier. The nation in its anxiety asked whether there does not exist at the head of the state a preponderating influence with which no ministry could cope. The Chamber only asked what President MacMahon to-day promised, namely, a pacific policy and repression of the ultramontane intrigue. Gambetta cited the saying of Marshal MacMahon made in the presence of the vile intriguers and the fomenters of disorders, who are to-day raising their heads: "Do not attempt this adventure! The chassepots would go off of themselves." Gambetta added: "It is time to turn to constitutional truth. It is not true as suggested by well known counsellors that the President of the Republic bears a responsibility over and above that of the ministry. The authors of such suggestion are the President's real enemies. They are leading him to ruin. Marshal MacMahon during his military career, can not have studied political truth. The Chamber must recall him to an exact observance of the constitution and divert him from perfidious counsel. The country alone is sovereign. Let it be stated whether the intention is to govern with Republicans possessing the confidence of the country, or with men whose unpopularity has been demonstrated. If dissolution happens, the majority has no fear, but the country may see in it the evil advisors of the Marshal were resolved to bring about a dissolution. All he had to say was that dissolution would be a preface to war both at home and abroad.

Eager crowds surrounded the Paris and Versailles railway stations yesterday. Around the Chamber the crowd was so great that soldiers had to be posted to keep the approaches clear.

The Bishops' Protest.

PARIS, May 17.—Several bishops have published letters adhering to Cardinal Guiber's protest against the resolution passed by the deputies concerning the ultramontane intrigues as implying suspicion of patriotism of Catholics.

MacMahon Indorsed.

PARIS, May 17.—At a meeting of the Right a resolution was passed declaring President MacMahon only exercised his constitutional rights. Newspapers of the Right declare that the Left are irritated and impatient. The attitude of yesterday's meeting confirmed President MacMahon in the resolution he has taken.

The French Dissensions.

PARIS, May 18.—The excitement was quieted Wednesday night by a report that the project of forming a Broglie cabinet was abandoned. This morning President MacMahon's followers affected to regard the meeting of the Left last night as a challenge to the marshal, and conciliatory ideas were again abandoned. Duke de Broglie held a crowded reception last night, at which he declared the abuse which had been attempted of the marshal's name by the Republican cabinet could continue no longer.

PARIS, May 18.—Duke de Cazes received all the ambassadors yesterday. He found among them a most unfavorable impression. Not one approved what has passed, although some professed little sympathy for the republican system. On all hands it was felt certain that the public opinion of Europe would be painfully struck. A Broglie ministry was appointed in fulfillment of a threat uttered by MacMahon if the Left passed their orders of to-day which they adopted yesterday, declaring that the chamber will only place confidence in a cabinet free and resolved to govern in accordance with republican principles, which alone can secure order and prosperity, he would immediately form a ministry from the Right.

Relative to Gambetta's speech in the chamber of deputies yesterday, a correspondent says never did the chief of the radical party display greater or more overpowering eloquence; never did he obtain such applause. The Right maintained a silent and dismal attitude. Only from having heard this speech and being present at the scene, could any one understand how much the earnestness of situation added to the orator's habitual eloquence.

The French Chamber Prorogued.

PARIS, May 18, 5:30 P. M.—A message from President MacMahon has just been read in the chamber, proroguing the sitting for one month.

Fatal Explosion.

PARIS, May 18.—The explosion on board the war steamer Revanch has already caused the death of 27 persons. Forty yet survive their injuries.

How Germany Regards the French Tumult.

BERLIN, May 17.—Simon's dismissal causes some excitement here. The good understanding between France and Germany would be seriously endangered if the clerical party attained power in France.

The French Dissensions More Serious.

LONDON, May 18.—A Berlin correspondent telegraphs that the development of the ministerial crisis in France is watched here with keen interest. It is universally supposed that Simon's fall is the result of ultramontane intrigue. If this should prove the case, the effect upon the relations between France and Germany may be very grave. It is a hazardous experiment for the Right at Versailles to begin such movements pending the adoption of important military measures by the German government. This opinion is publicly expressed here with very little reserve.

PARIS, May 18.—The new ministry has been gazetted. President MacMahon has written Duke De Cases as follows:

> Circumstances do not permit me to entrust power to the late cabinet of which you formed a part. I wish it to be understood that I intend to maintain with foreign powers the relations of friendship and confidence which you have been able to establish. Nothing must be done to impair these relations, and nothing must be changed in the foreign policy you so ably and worthily represent. I appeal to your patriotism and beg you to remain at the post to which I called you three years ago, so long as you may not relinquish it without prejudice to the public welfare.

LONDON, May 18.—The Times' Paris correspondent says that those who brought about the crisis are neither engaged in an Orleanist nor legitimatist conspiracy, not even in an anti-Republican conspiracy. Their conspiracy is simply one for office and they are going to battle without any sign or programme, and to this paltry ambition they have perhaps sacrificed the Marshal of France and justified beforehand the inevitable revenge which universal suffrage and popular indignation are preparing for them.

The Feeling in London on the Rupture in France.

The French President's peremptory ill-tempered dissolution of the cabinet excites grave apprehensions regard its purpose and probable consequence. It was more imperialist than republican in spirit, and its manner forcibly revives the belief that MacMahon is a monarchist in disguise. His motive is suspected to be a desire to check the rapidly growing strength of republicanism by violently compelling a quarrel with Simon, the Liberal premier, under circumstances which should compel the dissolution of the Liberal ministry, notwithstanding French law makes the ministry responsible to the Chamber of Deputies and not to the executive. It is feared that the selection as premier of Duke de Broglie, a known hater of republican institutions, will be speedily followed by a dissolution of the Chamber of Deputies, and that the mutual defiance already exchanged by the President and the Chamber may lead to serious disturbances throughout the nation. The people show signs of both indignation and alarm. The pretext for dismissing the ministry is so trivial that few accept it as the true one. It is doubtful if even the wisest among the representatives of the monarchical factions will consent to identify themselves with the President's policy in a case so injudiciously precipitated. Indeed they unhesitatingly disclaim responsibility for or sympathy with it. An uprising that shall overthrow MacMahon himself is among the future probabilities.

MacMahon's Explanation.

VERSAILLES, May 18.—Before the legislative bodies were prorogued a message was received from President MacMahon and read in both Chambers. The President explains that he scrupulously conformed to the constitution. The Dufaure and Simon cabinets were chosen in accord with a majority of the Chamber, but they were unable to unite sufficient support to guarantee good government. The President continues: I could not make a further step in the same path without making an appeal to the radical faction which desire a modification of our institutions. My conscience and patriotism do not permit me to associate myself with a triumph of these ideas which can only result in disorder and in the humiliation of France. As long as I retain depository power I shall use it within legal limits to prevent such results which would be the ruin of the country. The triumph of such theories was not contemplated when at the last election all the candidates availed themselves of my name. If the country were now interrogated it would reflect such a construction. I am firmly resolved to respect and maintain existing institutions until 1880. I might propose modifications, but I propose nothing of the kind. In order to allow emotions to calm I invite you to suspend the sittings one month. You can then discuss the budget. Meanwhile we shall maintain public peace, suffer nothing at home to compromise it, and notwithstanding the agitation in a portion of Europe, I am confident we shall maintain it abroad, thanks to our good relations with all the powers and our policy of neutrality and abstention. On this point all parties are agreed, and the new cabinet thinks like the old. If any imprudent utterances on the part of the press to compromise the concord we all desire, I shall repress it by legal means. To prevent this, however, I appeal to that patriotism which is lacking in no class in France.

Demand of the Right.

The extreme Right of the Senate to-day resolved to preserve the expectant attitude, and demand from the government in the first place a change of the prefectorial staff.

Paris Press on MacMahon.

PARIS, May 18.—Newspapers unite in denouncing the unparliamentary manner, both in conception and delivery of Marshal MacMahon's letter. The Debates thinks seldom can be found in parliamentary history an instance so abrupt as the marshal's letter, as well as one so conflicting with usage, and asks whether the French people are living under a republic or species of private despotism. The Republique Francais takes nearly the same ground, and more than hints that that which it styles the "cabinet occule," something like the English cabinet of the 17th century. Both the Siecle and Gazette de France speak as intimating a complete political programme. The latter journal intimating that this is the first time the marshal has assumed the responsibility of being above, and beyond the people's will, and laid out for the country a new plan.

The excitement throughout all France is great. It will be noticed that the vote of the assembly against the marshal is made up of all moderate sections as well as the extreme Left, and that it is only the extreme Right, less than one-third of the Chamber, which support the pretensions of the marshal. Imperialists are very active. They regard MacMahon as their man. It is understood the marshal believes a general European war inevitable, and he wants a government which will not be disturbed by parliamentary factions in the great struggle about to begin.

Grave Measure.

LONDON, May 17.—In the House of Lords to-night an amendment to the burial bill proposed by the Archbishop of Canterbury permitting the reading of other services than that of the Church of England in church yards was passed, by a vote of 65 against 60, despite the opposition of the government.

The House of Lords adjourned till the 4th of June.

THE WAR IN THE EAST.

No Fighting in Dobrudscha.

BUCHAREST, May 16.—Constantinople telegrams which reported that fighting had been going on in Dobrudscha is unfounded. No engagements have occurred between Russians and Turks in Europe except on line batteries between Ibrail and Ismail.

The question now being discussed here is whether the Roumanian army shall cross the Danube with the Russians or simply remain on their own soil to protect the lines of communication. Although a majority of the members are at present opposed to the passage of the river, it is extremely probable that more active and determined members of the war party will finally prevail.

A Good Haul for the Turks.

LONDON, May 17.—The Telegraph's special from Vienna reports that the Turks altogether have captured 200 Russian vessels in the Danube, containing over 130,000 hectolitres of wheat.

Persia's Position.

MANCHESTER, May 17.—The Guardian's dispatch from London asserts that Persia has declared her intention not to join Russia.

A special from Ragusa says extensive military preparations are making in Corfu.

War Horrors.

Reports have been received here of the massacre of returned rajahs at Durbend on a more fearful scale than any which have happened in Bosnia.

CONSTANTINOPLE, May 17.—The capture of Skookgoom Kale and rising of Circassians, who massacred the garrison and burned the town, is officially announced. An ironclad has left Skookgoom Kale for Batoum to obtain arms for the Circassians.

The Victory at Lookgoomkahl.

LONDON, May 16.—Pera correspondence sends the following additional particulars of the success of the Turks and Circassian insurgents at Sookgoom Kale. They drove the Muscovite garrison and rode the guards all over the district, chasing them to Gangara, which they also destroyed. When these successes were reported, Hassan Pasha landed to supply rifles and cartridges to equip the Circassians. A formidable local force was organized to march upon the railway line to Tiflis, aiming at the destruction of Kutais. Another large band was dispatched to raise the country in the rear of the Russian column which are attacking Batoum.

The foregoing news, however, was sent to Constantinople by the Turkish commander.

A Failure by Russians.

CONSTANTINOPLE, May 17.—A reconnoitering expedition of 500 Russian infantry crossed the Danube in a boat a little below Reni. The Turks allowed them to come well within range when they opened such a heavy fire that the Russians were compelled to retreat to their boats with serious loss.

Russians in Wallachia.

The Russians have crossed the Aluta and entered Little Wallachia, which it was expected would be occupied solely by Roumanians. Gen. Skobeleff's division of Circassian Cossacks intended to head the advance of the invasion, is passing through Bucharest en route for the Danube.

Russian Tariff.

It is stated that Russia intends to increase the duty on imported tobacco, which now yields about ten million rubles yearly, sufficiently to increase the yield several millions. Simultaneously, the tax on Russian growth will be reduced to encourage home cultivation.

Russians Marching on Lumetza.

JASSEY, May 17.—The Russian infantry corps, numbering 52,000, accompanied by a proportionate force of cavalry and artillery, is marching in the direction of Lumetza. It is believed the main body of Russians will attempt to cross the Danube there.

American Arms in Turkish Hands.

Eight Turkish soldiers captured near Ibrail were armed with American rifles firing 36 cartridges without reloading. In addition to the charges contained in his rifle each soldier was provided with 120 rounds of ammunition. The Russians were somewhat surprised to find such weapons in the hands of their enemies.

The Russians near Kars.

The Russian movement of concentration upon Kars from Potaikaltzik, Alexandropol and Irivan has come to a standstill a few marches from the frontier, partly from the necessity of establishing stores for victualing the troops on the Turkish soil and partly by the Russian generals recognizing the change effected in the condition of warfare by the universal adoption of the needle guns attacks in massed columns are out of the question.

Strict Rules for War Correspondents.

NEW YORK, May 18.—The Sun has special London war news, with the following most important points: To send reports direct from Russian camps forfeits journalistic credentials. The most exciting conditions are subscribed to by each correspondent, upon the back of which is his photograph, and a duplicate is left at headquarters. As special aids to these are the superintendent's press corps.

Disraeli Preparing for War Troubles.

Disraeli is believed to be preparing to precipitate England, joined by Austria, into a conflict with Russia. In diplomatic circles England's position is a foregone conclusion. War measures are met with enthusiasm among the great body of merchants, whose business is crippled by the blockade of the Black Sea and the cessation of traffic with that region, in Liverpool, Glasgow and London, is more than with the United States. Portions of the war party press clamor for instant protection of England's rights. The Russian ambassador has gone home.

General War Notes.

CONSTANTINOPLE, May 17.—The cannonade between Oltenitza and Turtukai continues.

BUCHAREST, May 17.—The Roumanian government has published a note stating it can no longer doubt it is at war with Turkey, by the fault of Turkey, and it must take measures accordingly.

The Russian army corps at Odessa has been ordered to the Crimea to prevent the spread of the Tartar insurrection.

The report that the Turks intend to seize church property in Bulgaria causes much excitement there. Many monks are accompanying the Turks to Caucasia to incite a holy war.

LONDON, May 18.—Russians are purchasing arms largely in Germany.

Russians have closed several channels of the Danube near Matchin and Galatz with torpedoes.

Effective measures are being taken to follow up the Turkish success at Sookgoom Kale, and the position of the Russians near Batoum is becoming one of great danger.

Prince Milan has sent an autograph letter to Grand Duke Nicholas.

It is said Servia is ready to take the field with 40,000, on condition Russia pays the expenses.

Russians Repulsed.

LONDON, May 18.—An Erzeroum dispatch, dated the 15th, says the Russian attack on Ardaham has been bravely repulsed by the Turks.

Russia Must Define Her Purpose.

The Times' Vienna dispatch says according to a statement of the Russians they intend going to Adrianople, and when there informing the powers that having accomplished their task they now call on Europe to consult on what should be done next.

Russia Must.

LONDON, May 18.—A Times Vienna correspondence, discussing the report that England is trying to induce Russia to fix a limit to her military operations, says it is not thought impossible that Count Schoewaloff may endeavor to induce the Russian government to give such assurance about its designs as will allay, as far as possible, all misapprehensions regarding them that have arisen in England but it is doubted that the way of doing this will be an attempt to fix the limit to military operations.

Russians at Kars.

LONDON, May 18.—A special from Erzeroum dated the 17th, says the Russians attempted to bombard Kars. They miscalculated the range, the shots going over town without any damage. Kars replied and forced the assailants to retire, but they subsequently attempted the erection of siege works. The Turks lost some munitions on account of sudden attacks on the flanks. 2,600 Circassians from Van have been checked by the enemy.

Russians Falling Back.

LONDON, May 18.—The Times and Telegraph's Pera dispatch, says the Russians are falling back from Kars and Circassians are advancing on the extreme Muscovite right from Van to Erwan.

Another Great Battle Expected.

A great battle is expected to take place at Taoram Kala.

Severe fighting is imminent at Batoum.

Emigrants for the Black Sea.

A large force of Circassian emigrants with arms and ammunition have been shipped from the Bosporus for a point upon the Black Sea coast. The expedition will be protected and assisted by two ironclad frigates.

The War Feeling in Roumania.

The Times' Vienna correspondent commenting on the feeling in Roumania towards Russia, says despite the excitement caused by the Turkish bombardment of Roumanian towns, there are not wanting men who will not allow themselves to be carried away by the prevailing current, which they were not able to stem, but a reaction seems to have set in, and despite all pains to disguise the real state of things, the conviction is already dawning that far from having taken steps towards her cherished independence, Roumania has only taken steps towards exchanging a Turkish master for a Russian master, "King Log for King Stork."

A Side Fight at Kars.

An official telegram from Tiflis May 17, states that while Gen. Keumroff was reconnoitering before Kars on the 10th inst., the Turks attacked the Russian irregular cavalry. After a stubborn fight the Turks left 64 dead on the field. The Russian loss was one officer and 20 men killed and five officers and 54 men wounded.

General Pschelokaiff is commanding a brigade of Daghestan cavalry.

Turkish Barbarities.

BUCHAREST, May 18.—In the Turkish village of Turin tal there is quite a Christian element, though subordinate in number to the Turks. On the 16th the latter made an attack upon the Christians. The males were put to the sword. Many of the elder women shared the same fate and the younger were brutally outraged. The cries of the victims were distinctly heard by the outposts of the Roumanian army, and the report is further corroborated by two Bulgarians who escaped the slaughter.

SATURDAY MORNING, MAY 19, 1877.

THE ELECTORAL QUESTION.

In the current number of the *North American Review* Senator Morton has an article on our mode of choosing Presidents and the need of the adoption of more precise methods to ascertain the will of the people in such elections. It is to Mr. Morton's credit that he almost alone among the public men of the present time foresaw the danger of just such a contingency as recently arose over the counting of the electoral vote. For several years he spoke on the subject whenever he could find opportunity, and vainly endeavored to enlist the attention of Congress in measures devised to give greater certainty to the obscure generalizations of the Constitution on this important matter. Under the growth of a new political system, arising from the development of party organizations in a manner not dreamed of by the founders of the government, electors appointed by the several States now have no independence and no power to exercise judgment in making a choice. They are held rigidly to the dictations of conventions, which it would be deemed infamous to disobey. At any time controversy is likely to arise as to what electors a State has actually appointed. The danger we so narrowly escaped but just now may again be presented in any election. This time we were saved from a commotion that would almost certainly have led to civil war, had it not been for our recent experience in such a war and a remarkable forbearance that comes as a lesson from it. Mr. Morton urges the uselessness of the electoral college, thinks it ought to be brushed away, and expresses a belief that the best change that could be made would be an amendment to allow the people to vote directly for President and Vice President. It is very probable that this plan will be proposed as an amendment to the Constitution at the next session of Congress. It has, indeed, been proposed heretofore; but it has been impossible to obtain much attention for the subject.

In the present state of politics the immediate results of such a change would probably be to the advantage of the Democratic party. In many States the Republican party relies for its numbers on the colored vote. How this vote can be to a great extent intimidated, overawed and coerced, has already been abundantly demonstrated. In all the Southern States tremendous Democratic majorities might be expected. The majorities heretofore thrown in those States would be of trifling magnitude compared with those we should witness in 1880, were the Presidential election to be settled by the popular vote. But a question like this should not be treated with a view to its probable effect on the immediate fortunes of one party or another. As a matter of fact we should expect strong opposition from the Democratic party to this proposition, though the adoption of it would be so much to that party's present advantage. For this goes against its most cherished notions as to State rights, obliterating some of the forms through which State autonomy is most plainly asserted. It is probable that many Republicans who might otherwise support the plan will be restrained by considerations of prudence taken from a party standpoint, and that many Democrats who would like to support it for the immediate advantages it promises them as a party will be held back by a reluctance to part with forms of procedure which to a certain extent maintain the importance and authority of the States as against the general government.

The present system is a check upon popular suffrage. Taken in connection with the manner of electing Senators and their long terms of office, it was designed to establish a system which should not be subject to the rude shock of sudden revolutions of popular sentiment. These limitations were the product of a study to obtain stability as a guard against the tumultuous movements of practical democracy. We believe that the electoral system should be retained in its leading features, but with new regulations to give it greater precision and certainty, and with provisions to make the decision of all controversies and contests so prompt, definite and effectual that there can be no appeal. And this should be done speedily. Parties may not again divide between them the electoral vote so evenly as they did on the last occasion. But on the other hand, this may be repeated in the very next election. The present is a highly proper time to give the subject consideration.

SENDING THEM TO OREGON.

The press of California, with the selfish short-sightedness that always characterized it, still refuses to see that it is to the interest of that State to direct the attention of newcomers to Oregon; and hence many who come to California and are disappointed with its withered fields, return to the East, thinking there is no place on the Pacific coast that offers to the eye any appearance of freshness and beauty.

But though the press of the State is thus narrow in its spirit, many of the business men of California, with wider perception of the interests of the Pacific slope and of San Francisco as its commercial center, frankly point out the advantages Oregon offers over California, especially at this time when drouth makes so much of that State closely resemble a desert. We have information that a good many people are sent to Oregon by residents of California, and that one will now hear in San Francisco more talk of our State than ever was heard before.

The fact will gradually be made known, and in course of time will be universally admitted, that Oregon possesses greater variety of natural resources than California. Of climate California has made a great boast and often at Oregon's expense. But the advantage is actually the other way, and superiority of Oregon's climate over that of California is established by a test from which there can be no appeal. We mean certainty of crops, absence of drouth and of extreme heat, and a country covered with verdure the year round. They do well for California, and especially for San Francisco, who send emigrants to Oregon.

WAR NOTES.

The Russians are thoroughly familiar with all the ground over which they are now campaigning. In former wars they have marched and counter-marched over every rood of it, and have fought battles repeatedly along the line of their present advance. Therefore, they know just what natural obstacles they have to encounter, and at what points the Turks may be able to make most effective resistance.

Erzeroum, some eighty or ninety miles southwest of Kars, is the principal objective point of the Russians in their campaign in Asia. But Kars itself, before which there has been severe fighting, is not to be captured easily. It resisted a five months' siege in 1855, and is more securely fortified now than it was then.

England's attitude toward Russia daily grows more threatening. That the government wishes to ally itself with Turkey is very evident. It will do so the moment that public opinion can be worked up to the point of making it a safe thing. The loss of a little trade to England changes public opinion rapidly. England never fights for sentiment. The condition of the Christian subjects of Turkey doesn't furnish her a cause, but the interruption of a profitable traffic will.

Along the Danube the Turkish positions are of great strength. English authorities think that the Russians, even if they succeed in passing the river, will be in great danger. Turkey's superiority in ironclad gunboats might, it is said, enable her to cut off Russian forces crossing the river from their supports in Roumania, and bring the invading army into a position as desperate as that of the French at Sedan.

According to the Cincinnati *Gazette*, all true Americans will continue to pray for the Russians and send guns and cartridges to the Turks. Those formidable American rifles which the Russians find in the hands of captured Turks make the Muscovites open their eyes in astonishment, and bring their generals together in a council of war.

Carlyle says that "the maddest and most criminal thing the British government could do" would be to become a participant in the present war.

THE STRUGGLE IN FRANCE.

The following, from the New York *Times* of May 5th, will render intelligible to readers of telegraphic dispatches the principal causes which underlie the present remarkable commotions in French politics:

The restoration of the Pope's temporal power has become a living issue in every Catholic State in Europe, and nowhere more so than in France. The Bishop of Nevers bluntly reminded Marshal MacMahon the other day that the administrative problems with which he was called upon to deal were of trifling importance, compared with the great question of defining the position of France toward the Italian revolution and the Holy See. The somewhat excited debate which took place yesterday in the French Chamber of Deputies, and the resolution adopted as a result of it, are merely incidents in the struggle, daily growing more bitter, between the Church and the Republic. M. Gambetta is not the man to be insensible to the danger of exciting the hostility of the entire French priesthood, but the attitude of the clerical leaders has left the great Republican statesman no choice but to defy a power which spurned anything like compromise. The Church stands ready to support any pretender—imperial or royal—who will promise to prop up the temporal power once more with French bayonets, and it need hardly be said that all which is implied in such an attitude presents a constant menace to the existence of the Republic.

The following from the Salem *Statesman* has the emphatic endorsement of the OREGONIAN:

In view of the important political issues at stake it is especially desirable in Oregon as well as California, that no false issues be raised; that the choice of standard-bearers be left with the people without dictation or intriguing from any quarter or anybody.

DIED.

In this city, May 18, Charles William, eldest son of Levi and Jenny Estes, aged 9 years, 10 months.

CITY.

CONFIRMATION SERVICES.—Yesterday forenoon some very interesting and impressive services were held at the Synagogue Beth Israel by the Rev. Mr. May, on the occasion of the annual festival, Shebuoth, or Feast of Weeks. The interior of the Synagogue was very beautifully decorated with evergreens, garlands and festoons, which lent an air of taste and refinement to the whole building, and heightened the effect of the solemn ceremonies held. The large room was crowded to repletion. As is usual, a number of applicants for the solemn rites of confirmation were presented. Immediately following the customary services, came those of confirmation. The following are the names of the candidates: Carrie Rosenblatt, Emma Durkheimer, Gertie Kahn, Bertha Waldman, Wm. Wolf, James Goldsmith, Leon Rosenblatt, Leon Kauffman, Seymour Friendly, Isaac White, E. Rosenstein, Michal Lyon, Nathan Bergman and Nathan Simon. The confirmation services were beautiful and impressive. At the close of the ceremonies, Rev. Dr. May delivered a short but very fitting address to the candidates.

A WORK OF BENEVOLENCE.—The *Sentinel* says: The Sisters of the Most Holy Names, of this city, have recently greatly improved and enlarged the Orphanage on Fifth street, in order to accommodate the increasing number of orphans under their charge. The former building has been elevated, the inside remodeled and otherwise improved, and the expense thus entailed on the Sisters will not fall short of $3,000. This large amount is expended by the Sisters without the hope of gaining a single dollar for themselves, but inasmuch as the outlay is entirely for the benefit of the present and future orphans who may be received into the institution, it is to be hoped that some means will be devised by the charitably disposed people of Portland whereby the whole of this heavy burden may not be left on the Sisters alone. Cannot a lecture, a concert, a dramatic entertainment, or some other means be adopted whereby at least a third of this expense can be raised? Who will move in this matter, and thus gain for themselves the prayers of the orphans and the gratitude of the Sisters?

RIVER IMPROVEMENT.—Mr. R. A. Habersham, who has charge of the work of improving the channel of the Upper Willamette, returned to the city Thursday after some days absence. He informs a contemporary that the snagboat stopped at McCloskey's chute and raked the channel with the scraper, improving it somewhat; the boat was then taken to the Centennial slough, above Corvallis, from whence she will drop down the river, removing snags that give trouble. The river last week at Salem was only fifteen inches above low water mark. Work will be commenced early in June constructing wing dams between Corvallis and Oregon City at such bars as give the most trouble. About 2,000 lineal feet of dam will be built this summer.

PATENT WATER FILTER.—Mr. W. R. Sproul, who arrived on the last steamer from San Francisco, has just received the agency of the patent Carbon Water Filter, which is, beyond doubt, the best filter ever introduced on the Pacific coast. These filters are so made that they can be attached to any faucet or basin cock, are reversible and clean themselves. They are cheap, neat and durable, and purify every drop of water passing through the carbon. By using them much sickness is avoided. No household should do without them. Mr. Sproul will wait upon our citizens at their homes and afford all an opportunity of practically testing the merits of these filters.

A HANDSOME PRESENT.—Yesterday the confirmants, whose names we give in another column, presented Rev. Dr. M. May, Rabbi of the Synagogue Beth Israel, with a beautiful table case. The case contained full sets of solid silver tea and table spoons, and knives, etc. The presentation address was made by Miss Bertha Waldman, on behalf of the donors, and was fittingly responded to by Rev. Mr. May.

BETTER TIME.—The O. S. N. Co. have arranged to keep a boat at the Lower Cascades from the time of her arrival until the boat reaches the same point from Portland next day. This enables the employes to load the idle boat and have her in readiness to leave for Portland the moment the passengers from above are transferred. The arrangement insures the arrival of the boat here at least four hours earlier.

AN EXCELLENT APPOINTMENT.—In the U. S. circuit court, yesterday, Judge M. P. Deady appointed William B. Gilbert, Esq., master in chancery and examiner of that court. His bond was fixed at $10,000. Mr. Gilbert is among the brightest and most promising young attorneys of the State and a gentleman of the highest integrity. The appointment is both deserved and well selected.

TO RETURN.—Cols. Mason and Weeks, Major Cooler and Capt. Babbitt of the ordnance, who have been absent some weeks, on court martial duty at Fort Colville, W. T., expect to reach this city on the 20th instant. Lieut. Farrow, returning via Walla Walla, reached Vancouver on the 13th; the other officers going by Lapwai will be two days longer on the way.

E. R. ASSOCIATION.—The Multnomah County Equal Rights Association will meet at Mrs. D. W. Williams', on West Park street, between Yamhill and Taylor, Saturday afternoon, at half-past 1. A full attendance is requested, as business of importance is to be brought before the Association. By order of the committee.

LIST OF LETTERS.—The following letters remain uncalled for in Wells, Fargo & Co.'s express office: Miss Ella Bell, J. H. Branson, H. L. Cohen, John Doland, J. J. Kenison, Mrs. S. E. Lemont, Wm. Nichell, Dr. H. Y. Steele, Geo. W. Thompson.

K. OF P.—A special meeting of Knights of Pythias will be held at Castle Hall this evening at 8 o'clock, to take into consideration an important matter. A full attendance is desired.

AMUSEMENTS.

GIROFLE GIROFLA.—Miss Jeannie Winston's benefit last evening at New Market was well attended, and the performance afforded the audience a rare treat—one which they were not slow in appreciating. Lecocq's dashing and sparkling comic opera "Girofle Girofla," was presented in a manner as amusing as it was fascinating. Miss Winston personated the title role in a charming style. She appeared in excellent voice, and her acting was exceedingly clever. In the drunken scene the acting and singing of Miss Winston and Miss Chappelle (Pedro) was exceedingly amusing. Mr. Tilla and Mr. Farley were equally felicitous in their efforts to please, and in the third act were a pair of rollicking and jolly boys as one could desire to see. The audience enjoyed the opera keenly, as was apparent by the laughter and applause which greeted it at every turn. Mr. Bell—the very clever buffo—contributed in no small degree to the sum total of enjoyment by his funny sayings and doings.

BENEFIT.—Mr. Tillbury, the advance agent, who has numerous friends in this city, will be the recipient of a complimentary benefit this evening. A very attractive bill is to be presented—the two last acts of "Maritana," and concluding with Offenbach's comic operatta, "The Rose of Avergne." This will positively be the last appearance of the English and Comic Opera in this city. For the special benefit of the ladies and little people, a farewell matinee performance will be given this afternoon. Bring out the children, as it will be the last opportunity afforded them. Balfe's gem, "The Bohemian Girl," will be the attraction.

EAST OF THE MOUNTAINS.—Monday morning the members of the English and Comic Opera Company, whose performances during the past fortnight have so amused and delighted our theater-goers, will start on a professional tour east of the mountains. Next Monday evening they will appear at The Dalles in "Grand Duchess"—only for one night. Wednesday evening they will open at Walla Walla in the same piece. The company is a most excellent one, and we hope the public of the towns mentioned will accord them a cordial welcome and liberal patronage. They deserve both.

LEOTARD'S BENEFIT.—Next Monday evening Mons. Leotard, assisted by Madame Leotard and Clementina Leotard, and a host of others, will give a performance at New Market Theater. It is a complimentary benefit tendered by the citizens of Portland. Already a large number of tickets have been sold and the prospects of a crowded house are flattering.

SPECIAL CHURCH NOTICES.

Rev. C. Eells, the veteran missionary of 30 years in Oregon and Washington, will preach at the Congregational church at the Dalles on Sabbath, May 20th, A. M. and P. M.

At the Congregational Church Sunday morning, Rev. J. A. Cruzan will preach to parents. Theme, "The Home with Children in It." Subject for evening, "That Boy Charley! What shall we do with Him!" Hour for evening service, 7:45. Seats free, and a cordial welcome.

Unitarian Church—Morning service at 11, Mr. Galvin will preach on "The Divine Discipline of Life," Heb. 12:11. Evening service at 7:30. Subject, "The Ground of Unitarian Christianity," a reply to the *Oregon Churchman's* misrepresentations of Unitarianism. A cordial invitation to all.

Taylor Street M. E. Church—Preaching to-morrow by the pastor C. V. Anthony at 11 A. M., and at 7:30 P. M. Subject of the morning discourse, "Temptation," in the evening, "The Relation of the Sexes, and the Christian Idea of Marriage." Sunday School at 2 P. M. Praise meeting at 7:30 P. M. Prayer meeting Thursday evening. All are cordially invited to attend.

Rev. Wm. M. Stewart, pastor of the Congregational Church at Semiahmoo, Whatcom county, will address the temperance meeting at the Y. M. C. A. on Saturday evening the 19th inst. Mr. Stewart is a veteran worker of 60 years' service in this cause and is now in his 83d year, yet vigorous. He preached thrice on the last two Sabbaths and walked from three to four miles. He will preach at the Plymouth Mission Church, corner of E and Fourteenth streets, on Sabbath, the 20th, at 4 o'clock P. M. All invited to attend.

PICNICS.

This morning, at 7 o'clock sharp, the O. S. N. Co.'s capacious and convenient steamer *E. N. Cooke*, acceptable substitute for the *Willamette Chief*, impossible to be had as expected, will leave her wharf at the foot of Washington street, gaily festooned with evergreens and beautiful streamers flying to the winds, bearing away the happy throng of excursionists on their anticipated visit to the renowned Cascades of the Columbia. The parting scene will be greatly enlivened with the soul stirring music of the Northwestern Band, led by Prof. Parrott. We wish the entire excursion party a day of unalloyed delight as they glide along the great Columbia amid its ever changing scenes of grandeur and sublimity. As some misapprehension exists, growing out of our notice in yesterday's issue, we repeat: Tickets for the steamboat excursion, to and from the Cascades, are $2 each; children under 14 years, $1. The railroad trip from the Lower to the Upper Cascades, a distance of five miles, and through a great mountain gorge, is extra. The O. S. N. Co. built this road at an immense expense and it proves to be a national profit. The splendid ride over this railroad may be enjoyed by of all the excursionists who wish it. Price of single tickets, $1; tickets for two or more, 75 cents each. We advise all to avail themselves of the opportunity of seeing that wild and unique portion of the Columbia river.

ENTERTAINMENTS.

Next Wednesday evening the Alpha Literary Society will give a musical and literary entertainment at the Taylor-street M. E. Church. Alfred Tennyson's beautiful poem, "The May Queen," will be read and represented by tableaux. In addition, a very attractive programme will be presented.

The literary and musical festival given at the Unitarian Church last evening, in aid of the Sunday school, drew a full house, and as the former entertainments of the same nature given there, was a season of enjoyment to all in attendance. The programme, as prepared by the committee, embraced choice elocutionary and musical selections, and was carried out in admirable style. The ladies and gentlemen and children taking part all sustained themselves well, and when praise is due to all we will not particularize.

PERSONAL.

Hon. I. W. Case, of Astoria, who has been attending the Grand Encampment, returns home this morning.

Wm. Q. Bruen, ex-chief engineer, returned on the steamer from California. He is not looking as well as his friends would like, though in good spirits. John Holton, he reports, is better, though not able to be out. San Rafael, and Lower California generally, he thinks, is not what it is represented to be for invalids.

WILLAMETTE BRIDGE.

TO THE EDITOR OF THE OREGONIAN:

I have been looking anxiously for a reply from some of the friends of the Willamette bridge to the articles that have from time to time appeared in the columns of your paper opposing the building of the bridge. I suppose, as it requires no great degree of penetration to discern the authorship of these articles, that others as well as myself have thought them scarcely worthy a reply, and I would not now attempt to write on this subject did I not believe that the course pursued by some of Portland's best citizens had been prompted by a misapprehension of facts. Since the presentation of the remonstrance, and the arguments (if arguments such misstatements and harangues might be called), the all absorbing theme with the people on the east side of the river has been the bridge, and each one is trying to outdo his neighbor in warning all against giving patronage to this agricultural implement dealer, because he circulated the remonstrance; and to that other man in the same business who first signed the petition and then the remonstrance, and to those dry goods merchants who made themselves so conspicuous in soliciting names to the remonstrance. The farmers have even offered to raise money to advertise the names of those who have tried to defeat a measure of such vital importance, at least to this part of Multnomah county. While we would not ask any one to change his determination in this matter, it would be better for all to endeavor to convince these remonstrators of the reasonableness and necessity of the project for Multnomah county to build the bridge. We believe those persons were not persuaded to remonstrate because they were unwilling to pay a four mill tax for two years, but because they have been led to believe it required three or four times as much to build it as it really would cost; and that it was a put up job for somebody to make money at the expense of the taxpayers, and that the traffic does not yet require a bridge, etc.

As to the cost of the bridge, I will bind myself with ample security to build a bridge, with the Smith truss spans of 200 feet, with draw 250 feet, with iron piers, with double roadways and two foot-passenger tracks, all housed in, warranted to sustain 200,000 pounds on each span, for $100,000, and have a handsome profit left.

Now for the "put up job." The man who suggested that in your paper some time since showed his want of respect, as well as a lack of plain common sense, by accusing the taxpayers of putting up a job upon themselves, (for none but taxpayers have had anything to do with the petition). The author of the article referred to dare not tell the public the names of the boats he runs. As for the traffic across the river, if any one thinks that the travel across the Stark street ferry won't pay one per cent per month on $50,000 more than the cost of the bridge we would refer him to the late receiver of the ferry. Now, why are we so anxious for this bridge? Is it because we want the people of Portland to come and trade with us? or that we may have better facilities to get to Portland? Are not nine-tenths of all the farming lands in this county on the east side of the river? Does not a large per cent of the wood consumed in Portland cross the river? Do we not form an integral part of this county? Are not your interests and ours identical? Are we not endowed with social qualities equal with yourselves, enabling us to enjoy the attending of your churches, lectures, theaters, societies, etc., and are we not virtually debarred from doing so from want of a bridge? Are we not required to pay double fare whenever we cross after night? Do not the dark and stormy nights, drift wood, high water, and other causes too numerous to mention, prevent us from crossing? Cannot farmers and gardeners from Washington county get their produce to your markets cheaper and quicker than we living in the corporate limits of East Portland? Is not our trade worth anything to Portland? and has Portland no interest in a bridge? Do we ask anything more than the loan of a small tax for two years.

Do you wish to compel us to depend on our business trade alone on our side of the river? Every year that the building of a bridge is deferred adds stores to East Portland. Would Portland be benefited by a separation of this part of the county from that? Are we to have no bridge because a few enterprising citizens of Portland who have invested a few hundred dollars in cheap tenement houses for which they now receive an exorbitant rent, and are fearful that some others may be as wise as they and build still cheaper ones on the east side and per consequence *they* lose their tenants? Would it not be an excellent idea to have patent gates on all the highways leading to Portland through which people might come but never return; also to allow all steamers and vessels to come to this port, but never permit them to depart. Wouldn't you soon have a city that would outrival New York?

Every day adds something to our knowledge of political economy. After having lately made a President of the United States by a new process heretofore unknown, an idea far surpassing that was advanced by the counsel for the remonstrators at the hearing before the court; that is, that 23 men, acting for themselves and as agents for Richard and John Doe, ought to have more weight with the court than 1,200 straightforward tax payers and voters who only claim to represent themselves. As to the legal points in the case, they have been so ably presented by M. C. George that they need no comment. I hope the opponents of the bridge have not forgotten that we helped to pay $125,000 for a court-house that is an ornament to your city, and that at a time when the county was comparatively poor. There was no remonstrance then.

If those few heavy capitalists who represent so much money (as stated by their counsel) are afraid that East Portland will snuff out Portland's candle should a bridge be built, we will consent to let them construct a sort of fish-trap at the landing on the Portland end, so that they may bag all that cross.

A word to the wise is sufficient. Now let all remember that 1,000 or more voters have asked for the bridge, and a much greater number would have asked if the petition had been presented them.

Yours respectfully,
E PLURIBUS UNUM.

CAPITAL NOTES.

Our correspondent, under date of May 18th, sends the following:

The public schools of our city have a picnic to-day over in Bush's grove.

L. Cheesbrough, formerly of this place, is sheepherding out in Southern Oregon.

Jos. Hoyt, Esq., who has been sick for several weeks, is reported to be in a dangerous condition.

S. P. Mathews, of Chemeketa hotel, is the right man in the right place. He knows how to make friends and to keep them.

The *Statesman* and *Mercury* are criticising each other severely on orthographical and grammatical errors. It is to be hoped each will succeed in improving the other.

Some parties are writing abusive, scurrilous letters and leaving them where they will be found by those whom they wish to injure. It would be well for them to desist. Suspicions are aroused.

Mr. L. E. Pratt has one of the finest gardens and greatest variety of fruit bearing trees of anyone in town. Quite a curiosity among the lot is a genuine fig tree. It is neither barren nor withered, but has brought forth its fruit in due season.

Miss Mary Stump of Monmouth, has received an elegant silver pitcher, as a prize offered by the *Christian Monitor*, a paper published in Indianapolis, Ind., for the best story. There were many competitors, but Miss Stump won the laurels.

W. H. Watkinds has purchased the Whitley farm in Polk county. It contains over 700 acres, and is considered one of the best farms in that county. All the stock, implements and improvements go in the purchase; $12,000 was the sum paid.

W. J. Herren, who has charge of the Grangers' large storing building at this place, shipped to-day 1,000 bushels of wheat to Portland. This has been brought in by the farmers in small lots, being a surplus on hand after seeding. The fancy prices wheat has advanced to, makes the happy farmer sweep his granary clean.

The capitol building, as it now stands, is anything but an ornament to the city and State. It has been suggested that the authorities should have shade trees set out around the building to hide its defects. It does not, nor will it, when completed, compare in architectural beauty to Marion county court house, at the opposite end of the avenue.

The Odd Fellows' library has become a fixed and prominent institution in our city. It contains about 900 volumes of the very best selections, and additions are being made frequently by the trustees, who order directly from the publishers. A large number of magazines and papers are received constantly, making this an attractive place for members of the order and their friends. Our venerable friend, F. G. Schwatka, has charge of the library, and performs his duty to the satisfaction of all.

Captains and pilots will note the fact that Peter Wilhelm has fitted up two rooms for their especial use at the Fountain, corner Ash and First streets. Number of English papers on file, including the London *Daily Shipping and Mercantile Gazette*.

Next month the city election will take place and candidates are coming to the front. The candidates for favor in the clothing business are those who sell the cheapest. Beck & Waldman is the firm.

HEMORRHOIDS OR PILES.

Dr. T. F. Wightman, the originator and proprietor of the "Wightman Process" for the cure of Piles, blind or bleeding, is at present in San Francisco, California, where all letters should be addressed. Persons desiring the "process" can have it sent C. O. D. by express. The success that Dr. T. F. Wightman had a year since in Oregon in curing the diseases of the rectum will be his recommendation. I refer to the following patients in Oregon—have no "agents": Jno. M. Bacon, P. M., Oregon City; E. M. Waite, Salem; A. Jennings, engineer O. & C. R. R., and many others.

Address Dr. T. F. Wightman, Cosmopolitan Hotel, San Francisco, Cal.

CORN REMEDY.

Dr. Halpruner's Patent Salve, for the cure of CORNS, BUNIONS, &c., is for sale by all druggists.

Linen embroidery in endless variety at J. Harris & Son's Emporium of Fashion.

Large new coffee mill for sale at half price. I. F. Powers.

$200 REWARD!
I WILL PAY THE ABOVE REWARD TO ANY one who will give information which will lead to the recovery of the Abalone Jewelry stolen from the store of H. W. Monastes on April 29th.

EUGENE ITEMS.

Our correspondent at Eugene City, under date of May 16th, sends the following:

Strawberries are ripening.

Fishing excursions are now in order.

W. H. Abrams & Bro. have commenced running the saw mill again.

The strawberry festival Wednesday evening last, at Lane's Hall was a success.

The game of foot ball has commenced on the public square again as of old.

The taxable property of Eugene, as shown by the report of the assessor, is about $500,000.

Mr. Titus has begun sprinkling the streets. He having secured the contract some time since.

A Mr. Randall has opened a butcher shop in the building next door to John Stowell's feed store.

Our city fathers have made arrangements to have street lamps placed at the most prominent street corners.

Mr. Harris' team ran away last Wednesday, but did little damage. Runaways are becoming quite frequent here.

Base ball is raging hot in this place. The University boys have sent a challenge to the Corvallis Club to play at Junction, one week from to-day.

There was a grand temperance rally at the brick church last week, which lasted for several evenings and created considerable interest in the cause.

The sawmill of W. H. Abrams & Bro. caught fire one day this week, while the hands were gone to their dinner, and had it not been for Johnny O'Brien and his section hands, who were passing at the time, it would have burned down. No loss.

Last Saturday our usually quiet town was thrown into considerable excitement, caused by a slight melee between a couple of our ex-ministers. Fortunately no serious damages were done or bones broken. Both are doing as well as could be expected under skillful treatment.

A couple of "soiled doves," who had been stopping here for a few days, hired a buggy of Mr. Jas. Humphrey last Sunday, for the purpose, as they represented, of taking a little ride. After they had been gone for some considerable time, Mr. Humphrey heard that they were making fast time in the direction of Junction. He immediately dispatched a person after the team, who overtook them near Junction and took the team and returned with it to town, leaving the "gals" to meditate upon the evil of their ways.

A CARD.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.*

Good Advice.
Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment *that* cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your whole family a winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. Sold by your Druggist. Agents, Crane & Brigham, Wholesale Druggists, San Francisco.

THE
NATIONAL DISEASE
[illegible]
Is it Curable?

THOSE WHO HAVE SUFFERED FROM THE various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and frequently serious and fatal affections of the lungs follow, in many cases, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

It Can be Cured.
IT CAN BE CURED. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleaned and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

Sanford's Radical Cure
IS a local and constitutional remedy, and is applied to the nasal passages by insufflation with Dr Sandford's Improved Inhaling Tube, which accompanies each bottle free of charge; and internally or constitutionally, where, by its action on the mucous coatings of the throat and stomach, it frees the system from the poison generated by Catarrh. Until this good result is effected no permanent cure can be made. Thus the united action of his remedy is superior to all others or combinations of others.

Sanford's Radical Cure
HAS worked a revolution in the treatment of Catarrh: it has demonstrated beyond all doubt that this disease, even in its severest forms, is curable, and that comfort and happiness may be made to follow years of misery, years of suffering, by a persistent use of it. The method of treatment originated by Dr. Sanford, viz., the local and constitutional, by a remedy prepared by distillation, is the only one ever offered to the public that will bear the test of time.

Sanford's Radical Cure
Is Prepared by Distillation.
EVERY plant and herb that yields its medical essence to it is placed in an improved still and there mingled with a solvent liquid, which, by heat, is made to pass over into the receiver, bearing with it the healing essences or juices of these plants or herbs, free from every contamination, pure and colorless. Thus the active medical constituents of thousands of pounds of herbs may be condensed into a very small compass. In this way SANFORD'S RADICAL CURE is divested of all the nauseating, worthless features of all other remedies, while its curative properties are increased tenfold. It is positively the greatest medical triumph of the age.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all wholesale and retail druggists throughout the United States. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston.

COLLINS'
VOLTAIC PLASTERS
An Electro-Galvanic Battery Combined with the Celebrated Medicated Porous Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.
ELECTRICITY
As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.
BALSAM AND PINE.
The healing properties of our own fragrant balsam and fine and the gums of the East are too well known to require description. Their grateful, healing, soothing and strengthening properties are well known to thousands. When combined, in accordance with late and important discoveries in pharmacy their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.
TWO IN ONE.
Thus combined we have two grand medical agents in one, each of which performs its functions and unitedly produce more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. Try one. PRICE 25 CENTS.
Sold by all druggists, and sent on receipt of 25 cents for one, $1.25 for six, or $2.25 for twelve, carefully wrapped and warranted, by WEEKS & POTTER, Proprietors, Boston, Mass.

Killed by a Car.

SAN FRANCISCO, May 17.—Albert McMahon, a child about 4 years of age, was run over and killed by a Hayes Valley car.

The Defaulting Lieutenant.

Lieut. Fleming, quartermaster of Alcatraz, captured at Laramie, was taken to Alcatraz and confined in the citidel to-day. His defalcations are found to amount to nearly $9,000, divided as follows: From prisoners' fund, $1,400; from individuals, $450; commissary fund, 900; quartermasters' fund, $6,000. He will be court-martialed probably some time next week. It is supposed his defalcation is mainly due to losses at gaming.

Another Fool Girl.

SAN FRANCISCO, May 18.—A marriage license was issued to-day to Pong Long, a young Chinese merchant on Sacramento street. The intended bride being Miss Selina Elliot, a good-looking young blonde, living at Prospect Place. Her father, who formerly was a respectable expressman in this city, now resides in San Jose. The daughter has been living at Prospect Place with a sister and friends, and is reported to be a reputable young lady about 25 years of age, and has been for some time teacher of a private Chinese school and on visiting terms with the better class of Chinese merchants on Sacramento street. The party left the county clerk's office as soon as the license was procured, refusing to be interviewed.

The Turf.

CHICO, May 17.—The afternoon was very fine and there was a large attendance to witness the race between Occident and Bodine. The track was in good condition. When the first heat was trotted there was a slight breeze from the northwest, but as the race progressed it increased, retarding the horses when finishing the mile. There was little choice in the pools, and backers of each of the horses supported their favorite with money. Occident drew the pole, and on the second score they received the word for the first heat. There was only a slight differance as the quarter pole was reached in 35 seconds, and at the half mile in 1:10 Occident had a slight advantage; rounding the turn the brown crew further away and near the three quarters Bodine broke and lost ground. In endeavoring to regain this he broke again, and Occident won in 2:20½. Second heat—the race was fast from the start and the quarter was made in 35 seconds, with scarcely a foot between the two, and at the half mile Bodine was half a length in front and 19 was the mark; the rate was slower round the turn and Occident gained, but Bodine coming away with surprising, resolute stride, won the heat in 2:22. The third heat showed the effect of the wind, now blowing very strong against the horses. Coming down the home stretch Bodine led to the quarter pole in 35 seconds, half mile in 1:10, and to the score in 2:25½. The fourth and deciding heat was won easily by Bodine, Occident cutting his quarters very badly, heaving and evidently not able to trot; time 2:31½.

CHICO, May 18.—The two mile and repeat running race not having been filled, the association offered a purse of $200 for trotting horses. It had the following entries, George Treat, Dutchman and Alameda Maid. In the pools Treat was the favorite, although after the first heat, the Maid was bought heavily.

First heat—After scoring several times the horses got the word. All three broke at different times, Dutchman especially, behaving very bad; Treat cut out the work close, followed by the Maid. The latter eventually won the heat in 2:28, Treat a good second, while Dutchman barely saved his distance.

Second heat—The horses scored six times before getting the word to a good start. All around the track they kept well together, and came down the homestretch with no advantage to either. Treat won the heat half a length in advance of his competitors; time, 2:31.

Third heat—Treat won this heat handily, the Maid and Dutchman both breaking badly. The former second, the latter a bad third; time, 2:33½. The fourth heat was a repetition of the last; Treat winning the heat and money in 2:30, the Maid being second, and Dutchman third.

In the half mile and repeat running race, the entries were Minnie Brighton, Don't Bother Me, and Mollie Adams. The former won in two straight heats; time 51, 52.

A Fiendish Deed.

STOCKTON, May 18.—This afternoon John Cooper, a colored boy, was herding sheep in Cherokee lane, a few miles from this city, when two men drove up in a carriage. One of them said, "Let's shoot that black s— of a b—," and drawing a revolver, fired two shots, one taking effect in the boy's hip, the ball grazing the bone and passing out the other side, inflicting a painful wound. The boy was brought to this city for medical attendance. The shooting was done in true White League style, the only object being to shoot him because he was black.

NEVADA.

Suicide.

VIRGINIA CITY, May 18.—James Bailey, an Illinoisan, aged 35, suicided last night by jumping down La Plata shaft, 150 feet. His body was found this morning, the right wrist and thigh broken, also right ankle broken; cause, stock losses and inability to obtain employment. He was a miner and married.

BRITISH COLUMBIA.

Victoria News Items.

VICTORIA, May 16.—The British boundary commission returned from Stikine river last evening. The observations taken establish the boundary line about eight miles below Duck's bar, on Stikine river.

The news from the new diggings above Fort Wrangel continues good. A quantity of gold dust from that locality came in, for assay last night.

It is rumored that Mr. Allen Francis, formerly U. S. consul at this port, has been reappointed.

The *Dakota* will sail for San Francisco on the 21st inst.

Large tracts of land have been pre-empted recently in Frazer river valley, and several new establishments for canning salmon are at work.

WONDERFUL SUCCESS

OF

DR. PAUL M. BRENAN

In the Treatment of Chronic Disease.

Positive Proof of his Wonderful Skill.

Testimony that Cannot be Contradicted.

Reliable Witnesses Testifying What he has Done for Them.

Perfect Cures where all other Treatment had Failed.

Crowds Coming from all Parts of the Country to Visit Him.

The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN—

For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish.

JAMES KING.
Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the pallate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus: that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and patuecatory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

THOMAS D. MURPHY.
Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir*: I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man*. For the past two years I have been under the medical treatment of different physicians, from whom I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me *now*, labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.

Your's Truly, JOHN BALLARD,
Employed at Colman's Saw Mill, Seattle.

[I will not publish any cures performed by me unless by the full consent of the parties.]

PAUL M. BRENAN.

Dr. Brenan can be consulted, free of charge, at his office at the Clarendon Hotel, from 10 to 12 A. M., and at rooms 6 and 7 in Corbett's Block, corner of Front and Washington streets, Portland, Oregon, from 1:30 to 5, and 7 to 8 P. M.
